Objective

Dynamic and results-oriented Cloud Security enthusiastic with extensive experience in implementing and managing security solutions within cloud environments. Skilled in identifying vulnerabilities, developing robust security strategies, and ensuring compliance with industry standards. Seeking to leverage expertise to contribute to a forward-thinking organization committed to enhancing cloud security.

Experience

Dec 2023 - July 2024
Code Rush / Cloud Security Engineer - Apprenticeship
Cloud Security Expertise: Proficient in securing cloud platforms such as AWS, and Google Cloud, including knowledge of security groups, IAM policies, and VPC configurations.

Security Architecture Design: Experienced in designing and implementing secure cloud architectures, including network segmentation, encryption, and access controls.

Threat Management: Skilled in threat modeling, vulnerability assessment, and penetration testing to identify and remediate security vulnerabilities.

Incident Response and Forensics: Capable of conducting security incident response activities, including log analysis, forensic investigation, and root cause analysis.

Automation and Scripting: Proficient in using automation tools and scripting languages like Python, PowerShell, and Terraform to automate security processes and configuration management.

Collaboration and Communication: Effective communicator with the ability to collaborate with cross-functional teams to implement security best practices and provide security awareness training.

Education

Course / Degree	School / University	Grade / Score	Year
Bsc CSIT	Amrit Campus / Tribhuvan University		Nov 2019 - Aug 2024

Certification

AWS Certified Security - Specialty
Certified

compTIA Security+
Certified

AWS Certified Cloud Practitioner
Certified

Skills

Identity and Access Management (IAM)

Encryption & Data Protection

Network Security

Cloud Security Monitoring

Cloud Automation

Cloud Security Architecture & Design

Security Incident Automation & Remediation

Collaboration & Documentation
